

EFFICIENT BY DESIGN

8NHPP Food Process Pump Stainless Steel Hydro Transport Pump Max. 350 m³/hour, Max. 25 mwc

Pump specifications:

Type	8NHPP-F18K
Max. flow	350 m ³ /hour
Max. pressure	25 mwc
Connections	8" x 8" ANSI
Free passage	125 x 225 mm
Impeller type	Single port impeller
Impeller material	Stainless steel AISI 304
Volute material	Stainless steel AISI 304
Back plate material	Stainless steel AISI 304
Mechanical seal	Cycloseal®
Treatment	Electropolished
Weight (net)	550 kg

FEATURES

Offset Volute

The innovative single port impeller configuration with the unique Offset Volute Design provides the end user with a food handling pump capable of transporting even the most delicate food products.

- Less than 2% product damage
- No product contamination

Energy Efficiency

In addition to reliable and safety pumps, today's food process systems must also be efficient and economical. Cornell Pumps are designed to deliver Best in Class Efficiency offering the most cost effective and sustainable technology available in the market.

Cycloseal®

Cornell's Cycloseal design has proven itself in the toughest applications, in some cases more than tripling the normally expected mechanical seal life. With its unique deflector vanes, works with the impeller back vanes to create a cyclo-action. This action removes solids and abrasive material from the seal area.

Cornell Pumps in Europe

A large team of professionals with over 60 years experience in the market are at your service in 7 different languages if you require any assistance with technical and commercial questions about pumps and complete pumping installations.

Central Warehouse in the Netherlands

- Wide range of Pumps and Parts in stock
- Dedicated customer help-desk (24/7)
- Optional European on-site servicing
- CE Machinery Directive 98/37
- ISO 9001 and ISO 14001 certified
